IMMORTAL RAIN

VOLUME 7

BY
KAORI OZAKI

HAMBURG // LONDON // LOS ANGELES // TOKYO

After a daring escape from the Calverts headquarters, Rain and Machika once again find themselves separated. Having thrown himself from the tower, Rain makes a painful recovery at Eury Evan's hideout. Soon the pair finds themselves on the run from Doma Folk, the enigmatic bounty hunter hired by Ys to track Rain down. Folk nearly succeeds in killing Eury, but Rain rescues him and the pair escape once again. Then, inexplicably, an announcement is made on television—Rain will appear at the Strom's Castle amusement park and take on all comers. Desperate, Machika rushes to the park just in time to see Rain appear...

BACKSTAGE

Let's! Volume 7 is let's!!

Hi, I'm Daiki! When I finally started this volume, I was so behind I wanted to cry. But I'm finally ready to send it out!

On the back cover I only sketched up one of the characters. Maybe even if we're inside a 12-page letter, it's still

I deeply apologize for keeping you waiting so long. I can be such a slug sometimes.

THANK

I see it

This volume has changed into more of a romantic story. I'm not very good at writing romance, so parts of it were a little embarrassing to write. Now if you were an RPG, for example, all the party members would finally gather together to ride the lion. After that, they would obtain the sword and fly off to defeat those with the Ultimate Sleeping mode of Devilhood.

I wondered if I could ever finish. I was so worried about how the book would turn out that I spent more time worrying about it than I did working on it until it became a vicious circle that nearly cost me an entire year. I used to wonder if I'd ever finish drawing the story, but after finishing through it, I'm finally done.

Please keep the faith and follow me until the story's end.

See you next volume!!

I'm older than Lady. So you can see. Even Daiki.
